Masquespacio just finished the design of the ARCO Furniture Collection for Houtique, a brand created by Really Nice Things.

The design of the ARCO Collection starts clearly from its inspiration by the Seventies. Composed by a couch, chairs, tables and high stools this new collection designed by Masquespacio is build up, as its name in Spanish indicates, from different rounded arcs that create a funny play of forms. It is especially interesting to see how combining a cold and industrial material like metal, it is converted in an attractive and emotional design through soft forms with vivid colors. Using a velvet produced and commercialized by Houtique it has been the intention to add a touch of warmth to the design, maintaining an authentic aspect.

마스케스파시오는 70년대의 산업 디자인 특징을 담은 아르코 가구 컬렉션(ARCO Furniture Collection)을 설계했다. 소파, 의자, 탁자, 등받이가 없는 높은 스톨로 구성된 이 가구는 아치 형태로 이루어진 금속 프레임에 나무 상판, 벨벳 좌석을 더해 차가움과 따뜻함이 공존하는 매력적인 디자인을 선보이고 있다. 여기에 산뜻한 색상을 적용하여 감성적이고 부드러운 느낌을 더한다.
